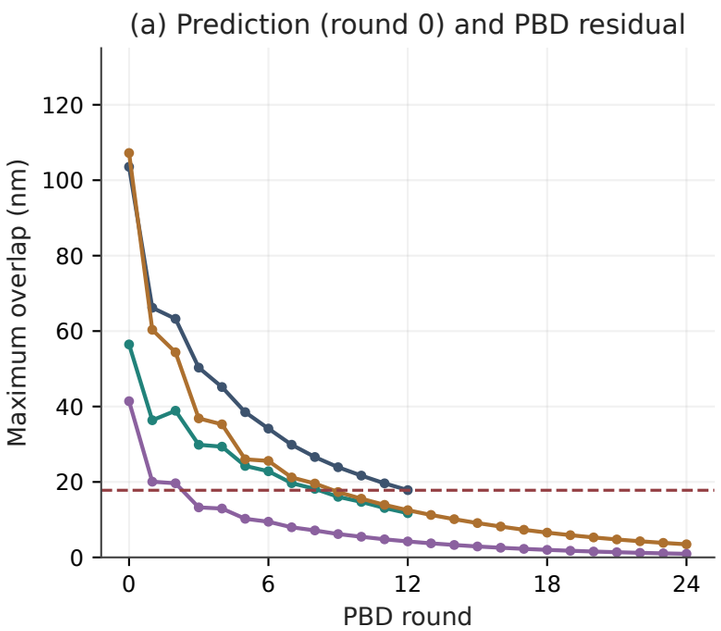
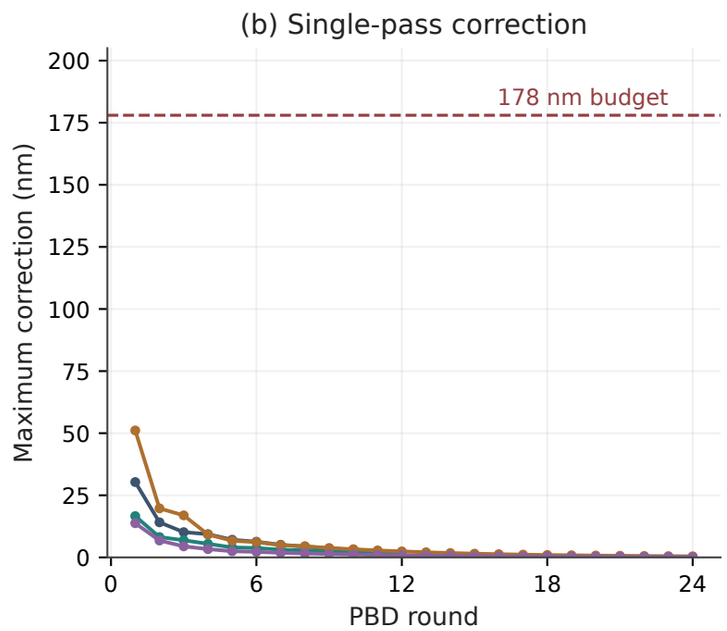
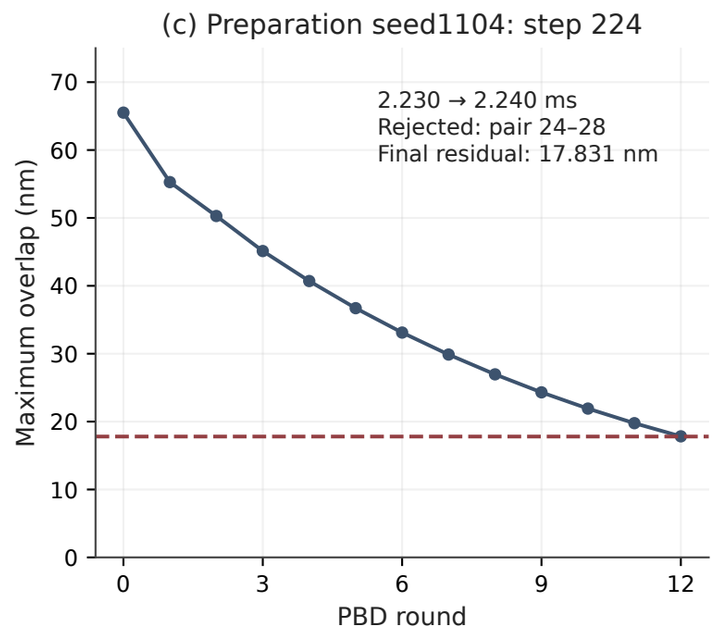
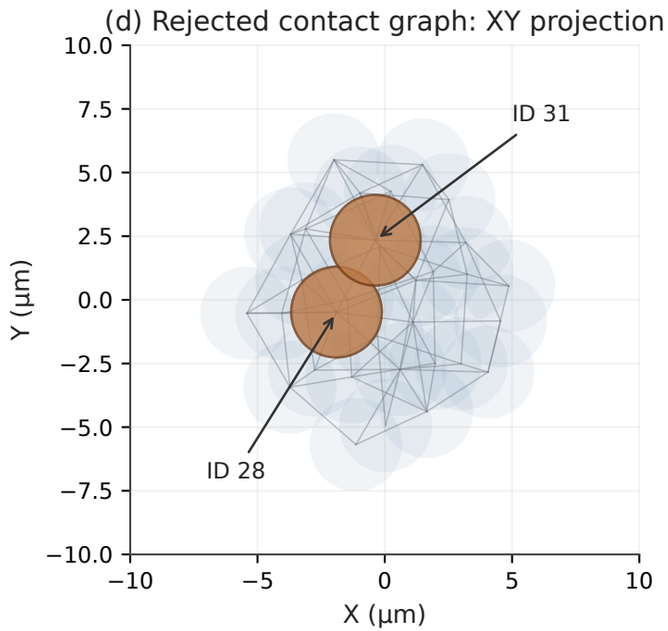
# F10E | Residual overlap and single-pass correction are different budgets

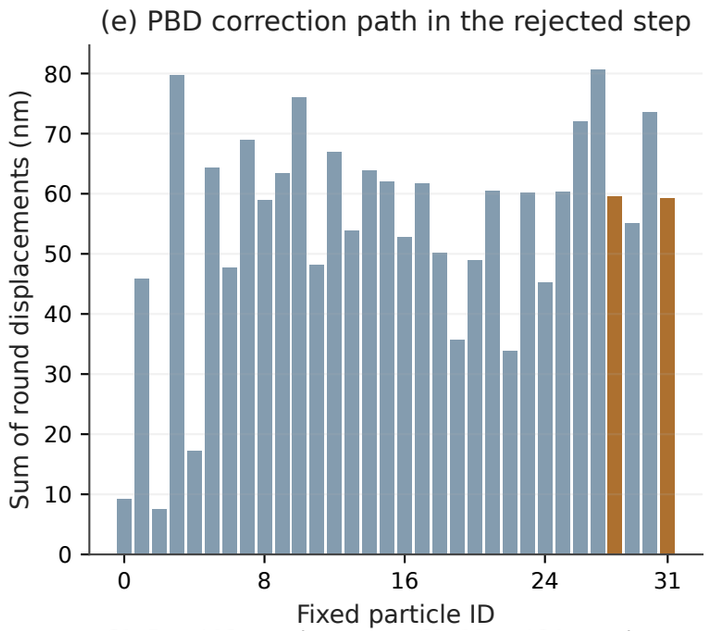
O / seed1102 at 4.900 ms: same original state and controls, scheme-specific replay histories

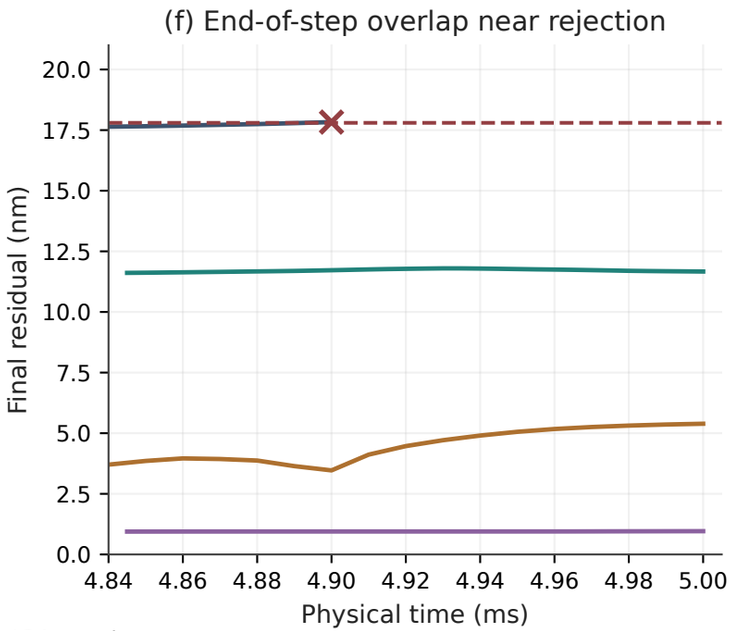












C0: 10 μs / 12 rounds  C1: 5 μs / 12 rounds  C2: 10 μs / 24 rounds  C3: 5 μs / 24 rounds

True sphere radius: 1.78 μm; links denote geometric proximity, not fusion. The rejected proposal is explicitly marked and is not an accepted trajectory.
