a O / 1102: Contact overlap

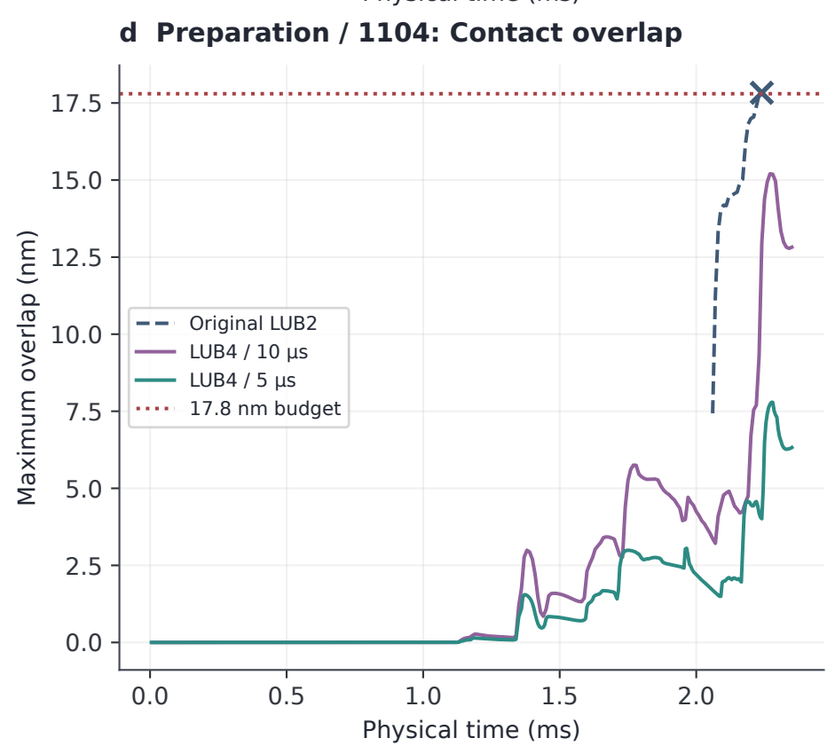

b O / 1102: Single PBD-round correction

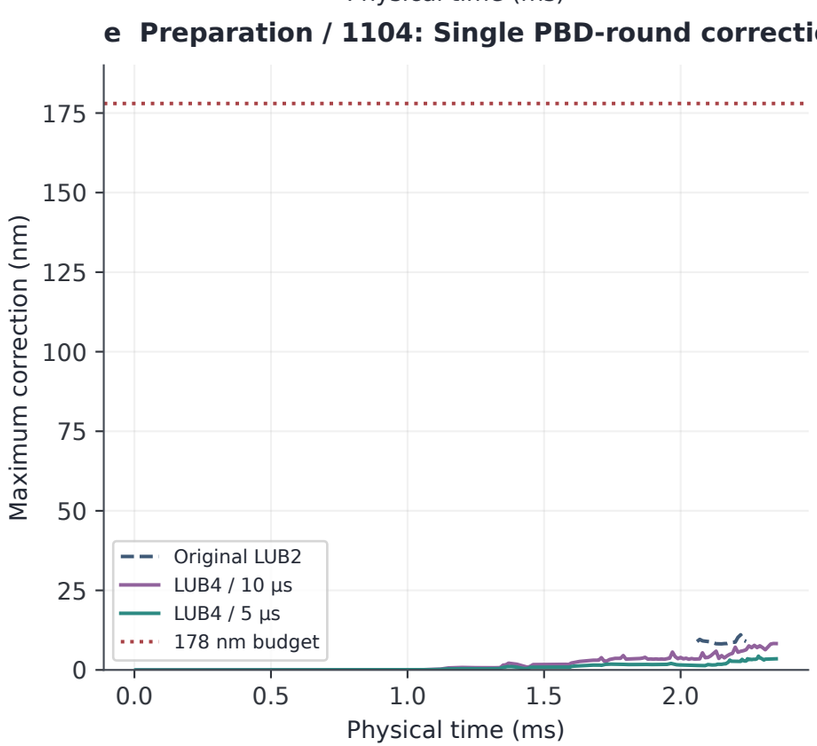

c O / 1102: Accepted LUB4 / 10 µs motion

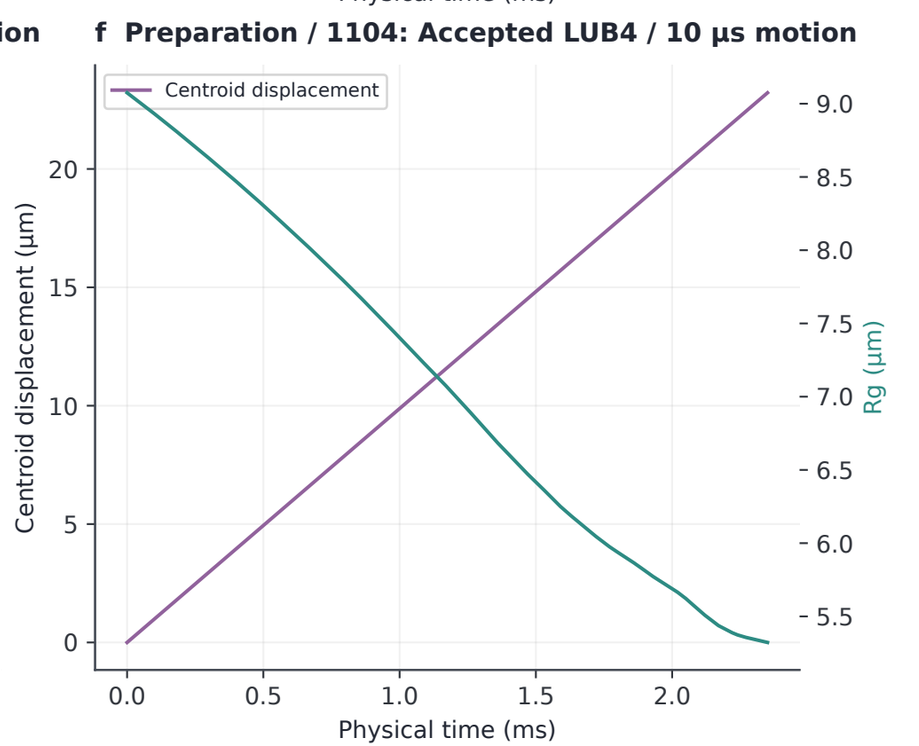

d Preparation / 1104: Contact overlap

e Preparation / 1104: Single PBD-round correction

f Preparation / 1104: Accepted LUB4 / 10 µs motion

Crosses are rejected proposals, not accepted states. Original failures: O 4.900 ms; preparation 2.240 ms.
LUB4 / 10 µs passes both short windows, then rejects O at 6.370 ms; no accepted continuation to 10 ms is fabricated.
