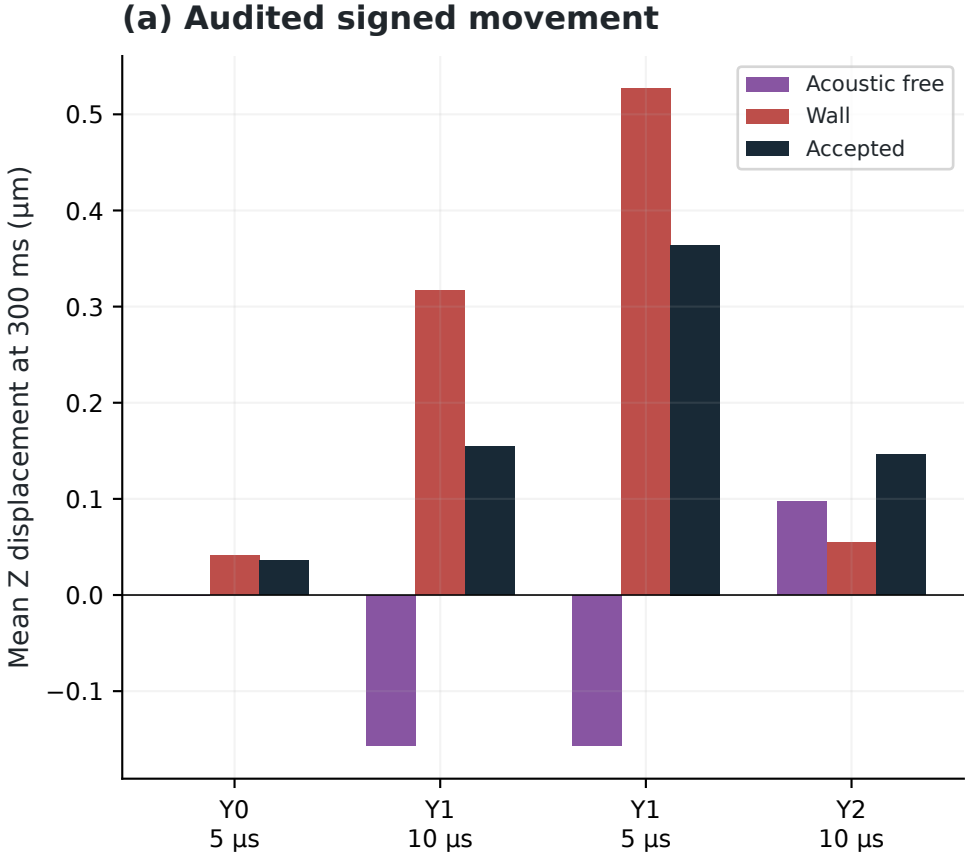
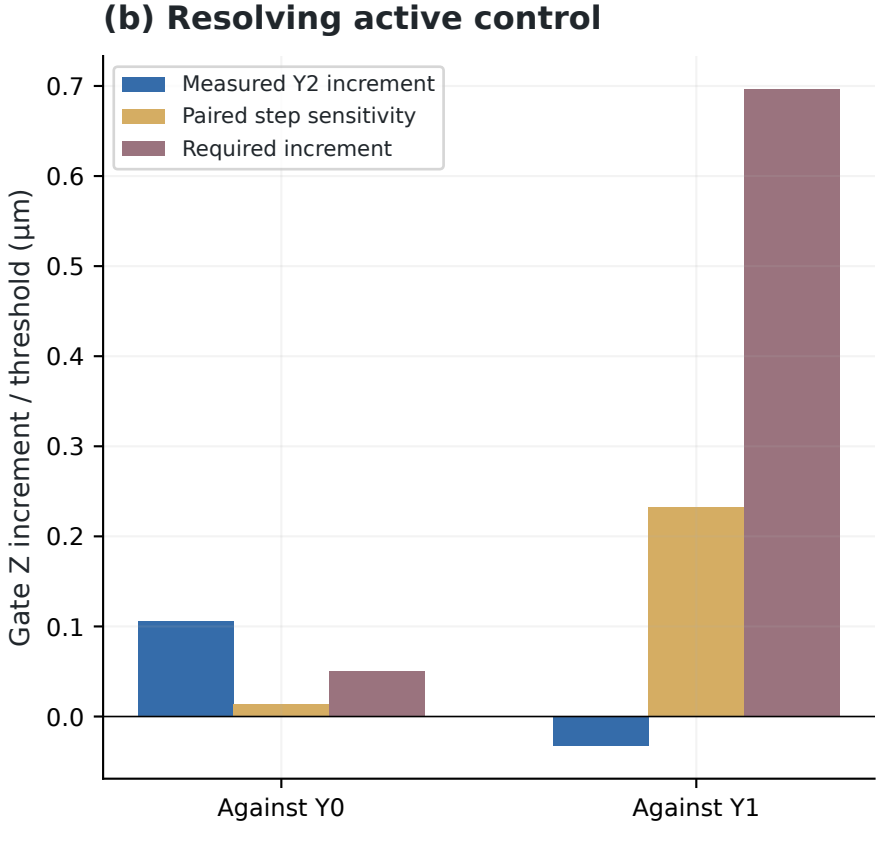
# Near-wall control remains unresolved at the original task scale





## (c) Separate evidence gates

**NUMERICAL PASS**

Exact ledger; original budgets pass.

**WALL SENSITIVE**

Y1 wall term changes by 0.209 µm when the step is halved.

**NAVIGATION NOT RESOLVED**

Y2 does not exceed both controls by the registered numerical margin.

**COHESION ONLY**

Acoustic groups remain connected; connectivity is not fusion.

**PHYSICS UNCALIBRATED**

Geometric wall projection is not validated near-wall propulsion.
