Numerical convergence and original acceptance limits
Maximum fixed-ID difference (nm)
Matched comparison (blue: half dt; red: cache/repeat)
Maximum Rg difference (nm)
Matched comparison (blue: half dt; red: cache/repeat)
Independent force residual / original limit
Trajectory
True geometric overlap (nm)
Completed trajectory
True-gap complementarity (nm)
Completed trajectory
Actual trajectory wall time (s)
Red: stopped at original rejection gate
