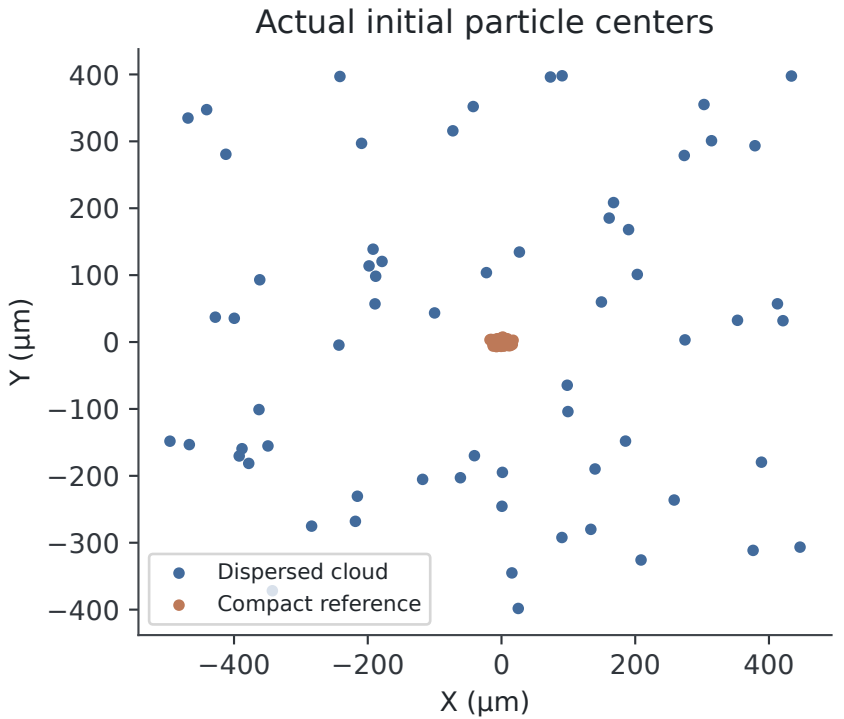
Baseline and observable-scale scope

Protected F10AE baseline

Historical trajectory replay:
BITWISE IDENTICAL

Original F10AA mechanics retained.
CPU contact + Warp GPU forces.



New question: spatial organization

P1: stripes
P2: lattice / composite pattern
P3: collective rotation
P4: switching (conditional)

R = 1.78 µm; monodisperse
Camera observability UNVERIFIED

EXPLORATORY | Homogeneous water | No flow or streaming | Uncalibrated physics and electrical mapping
