Three-PZT no-flow straight-tube apparatus

a Three-dimensional view • true dimensional ratios

b XY orthographic projection

Apparatus register

Inner diameter: 1.6 mm (PROVISIONAL)
Length: 20 mm (DEMO)
Wall: 0.1 mm; OD: 1.8 mm (DEMO)
Three active faces: Ø9 mm (PROVISIONAL)
Two side faces + one end face; no Z faces
Background flow: exactly zero
Normals shown by dark arrows

DEMO geometry; open lumen ends. PZT faces have zero acoustic thickness; material reflections are not included.
Initial spheres retain their actual radius (1.78 µm); their subpixel global size is not enlarged.
