F10Z | Relative convergence and proximity networks
Actual X-pair trajectories; OFF reference; geometric proximity is not fusion
ΔRg (nm)
Physical time (ms)
original
low train
medium train
local dense
multi cluster
near contact
medium OFF
Δmedian nearest neighbour (nm)
Proximity components
Proximity edges (d ≤ 2.1R)
Mean relative radial speed (μm/s)
Median pair-distance change (nm)
