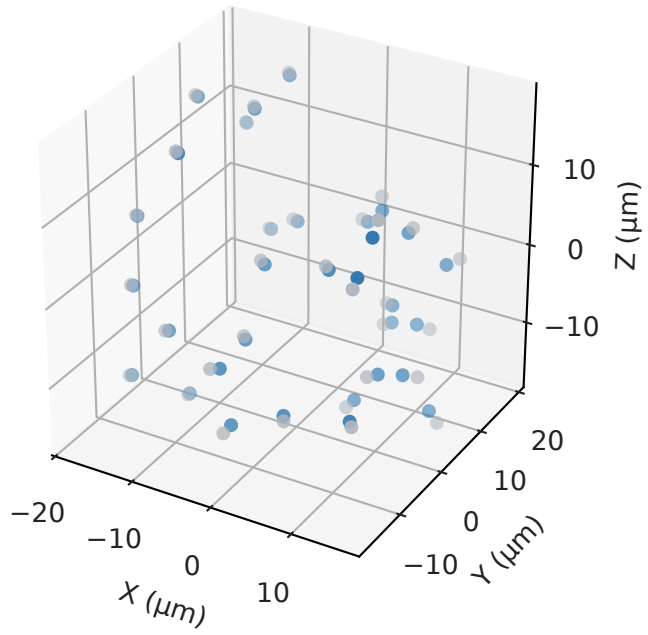
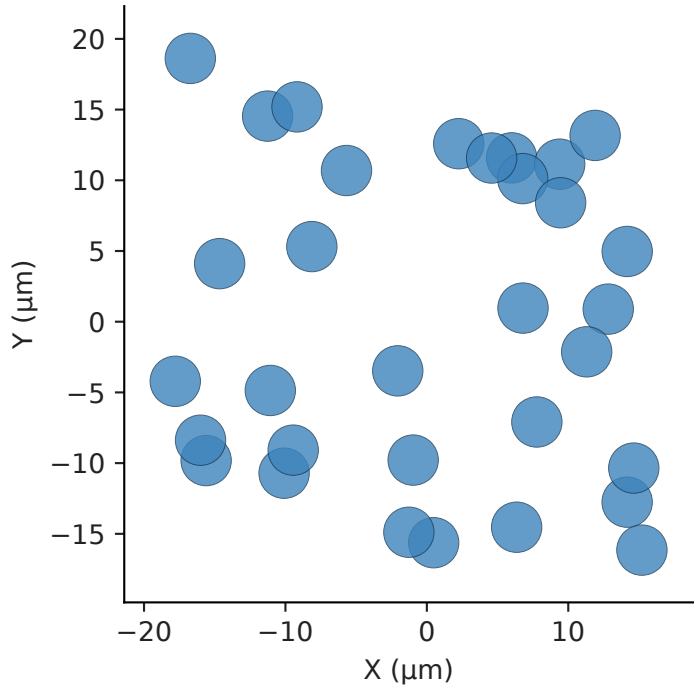
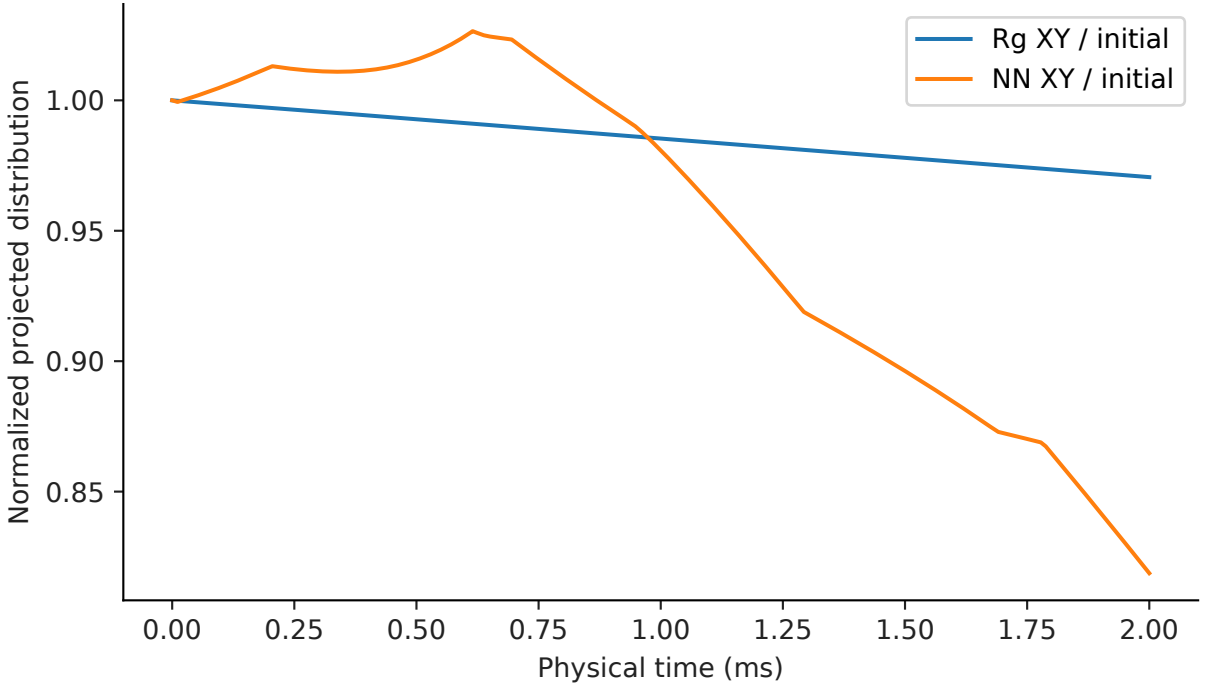
F10Z | Alignment with F10Y observation semantics
Projected model positions are not measured camera detections

SIMULATION_3D_TRUTH



SIMULATION_XY_PROJECTION





Shared definitions
Centroid, covariance, Rg, median NN
Relative motion and fixed spatial support

Simulation: 32 fixed material IDs
Vision: variable visible candidates, no IDs

No calibrated PSF, depth or occlusion model
No synthetic camera image generated
No real Chronos/PZT validation
